Best asphalt game for android. Asphalt game size. Asphalt games for android. Asphalt 8 airborne full game download for android. Asphalt 8 airborne full game free download for android.

Sony starts selling the Xperia 1 IV with continuous zoom lens. What does it cost to buy a smartphone that does something no smartphone from Apple, Google, Samsung can? \$1,599.99 is Sony's answer: for a camera lens that can shift its focal length anywhere between 85mm and 125mm. Here's Allison's take on Sony's continuous-zoom lens when she tested a prototype Xperia 1 IV back in May: Sony put a good point-and-shoot zoom in a smartphone. That's an impressive feat. In practical use, it's a bit less impressive. It's essentially two lenses that serve the same function: portrait photography. The fact that there's optical zoom connecting them doesn't make them much more versatile. Still, it is a Sony, and like no other, 3D games are becoming more common on Google's Android OS, and in this slideshow we've gathered some of the best to get you started. Even those titles without snazzy graphics are pretty addictive. Let's take a look: Speed Forge 3D sets its racing action in the future, on an inhospitable planet. The illegal races involve heavy-duty hover vehicles; you can choose from among three styles. You can compete on six different tracks, and add weaponry such as mines and homing rockets to your vehicle. One quick tip to increase the game's performance: Turn the music off. If you prefer race cars of our time, consider Raging Thunder. ToonWarz is a great 3D first-person shooter with two gameplay modes available over four missions. In addition to offering nice graphics, it supports multitouch on Android 2.0 devices. Once you get used to the on-screen controls, the gameplay becomes fluid. After you complete the missions, you can play against other people in real-time deathmatches. If you like ToonWarz, you might also want to check out ExZeus. Robo Defense is a classic tower-defense game packed into your mobile phone. Addictive and fun, the game features above-average graphics and allows you to get new weapons through sell-backs or upgrades. Depending on your strategy, you can spend your points to upgrade the towers, so you're not stuck with insufficient defenses later in the game. If you want more maps or to save your game progress, though, you'll have to go for the paid version. Bonsai Blast is not a complicated game, but it packs in hours of great fun. Colored marbles travel down a path, and you have to stop them from reaching the end by shooting more marbles at them. Once you've linked three or more marbles of the same color, they disappear and you get points. Fans of puzzle games will appreciate the 90 Zen-themed maps in Bonsai Blast, as well as the single-tap control method, which saves you the hassle of positioning the cannon before shooting. One of the latest 3D games to grace Android phones, Mystique Chapter 3 Obitus is an immersive first-person adventure with great graphics and a haunting soundtrack. The horror action takes place in two distinct environments (a hospital basement and a hellish alternate world), and the game features fully animated characters. You'll find plenty of challenging puzzles, too. But it's best not to play this game for the first time with the lights off. Buka is a cheerful orb, but mean asteroids stand in its way. With an arsenal of weapons such as shockwaves and spark attacks at your fingertips, your mission is to get Buka home, referred to as "The Happy Place." Overall, this is a great little game with plenty of levels and variety; it will keep you busy constantly. You'll have to strategize carefully. Sometimes you'll encounter too many asteroids to eliminate, so you'll have to avoid some of the obstacles—which, unfortunately, awards you no points. UFOs have abducted your fellow animal friends, and you have to save them. To get to the aliens, though, you must jump on platforms and control your direction by tilting the phone sideways. Abduction is a fun game with lots of power-ups, level schemes, and unlockable levels and animals (you start as a cow) along the way. The concept is simple yet entertaining—and if you have kids, you might not get your phone back anytime soon. Gem Miner is another simple game from the creator of Abduction. This time you have to raise a fortune by digging and exploring a mine. You mainly mine for coal, but you can also unearth bonuses such as gems or maps. It's critical that you have enough ladders to get back out of the mine; but the more money you raise, the better tools you obtain to dig deeper and find more valuable items. Again, the graphics are uncomplicated but the gameplay is highly entertaining. Kumpa is a labyrinth game that makes use of the accelerometer in your Android phone to help you navigate around the maze and light up various symbols in the levels, which in turn gives you points. As you level up, more obstacles, such as the "hole of death," appear in your way while you try to collect items before the time expires. It's a great casual game; fans of pinball-like action will like Kumpa. The premise for Armored Strike is simple: Eliminate your opponent, in multiplayer mode against the AI or a friend (nonnetworked). Essentially a turn-based strategy game in the style of Worms and Scorched Earth, Armored Strike stands out with its smooth graphics and fun gameplay. The game gives you many weapon choices, and once you get used to the angles and velocities, it becomes pretty entertaining. If you're not sure about spending \$3.99, though, fiddle with the free trial first. Though it looks confusing at first glance, Cestos is an interesting game. You have to knock all of your opponents' (up to four) marbles into space by dragging your own marble in the direction you want to shoot. Cestos requires a bit of strategy, as all players must enter their moves at the same time—and a match can last up to 5 minutes. The game is very social, too; you can friend/ignore anyone from the growing online community, and chat with or send private messages to fellow gamers. UniWar is a well-developed online multiplayer turn-based strategy game that can connect up to eight players at a time in up to 20 games at once. Fans of StarCraft will appreciate UniWar, especially as the game also allows for a campaign mode against the AI with 21 missions altogether. You'll find over 50 maps, and you can play two-versus-two, three-versus-three, or four-versus-four games online with integrated in-game chat. Android updates its operating system regularly to include new features, fix glitches, and make your Android device run more smoothly. The newest version is Android 10, and it offers some great features you'll want to get your hands on. Installing the new OS is not too difficult. Before you install it, you have to make sure your phone is compatible with it and able to receive the latest update, which we can help you with. Then, we'll give you some advice about getting the update. Make sure you have the right phone. Julian Chokkattu/Digital Trends Unfortunately, not every Android phone is going to be eligible for the Android 10 update. If your device is over 2 years old, has already received two major Android OS updates, or is a lower-end budget device, you might not be seeing Android 10 at all. We've collected rumors for each of the manufacturers in our Android 10 updates post, so you can check there for the latest news on a variety of devices. However, there are some devices which are a given. All of Google's Pixel phones have already received the update, while the latest flagship phones — like the Samsung Galaxy Note 10 range and Huawei's P30 range — are also highly likely to get the update. You can also safely assume any phone that took part in the Android 10 beta is likely to receive the update. The Android 10 beta program was the largest in Android's history, with an amazing 25 devices from 13 manufacturers taking part. Here's the list of phones that supported the Android 10 beta: Asus ZenFone 5Z Essential Phone Huawei Mate 20 Pro LG G8 ThinQ Nokia 8.1 OnePlus 7 Pro OnePlus 7T OnePlus 6T Oppo Reno Realme 3 Pro Sony Xperia XZ3 Tecno Spark 3 Pro Vivo X27 Vivo Nex S Vivo Nex A Xiaomi Mi 9 Xiaomi Mi Mix 3 5G Google Pixel 3a Google Pixel 3a XL Google Pixel 3 Google Pixel 3 XL Google Pixel 2 Google Pixel 2 XL Google Pixel Google Pixel XL Back up your data While the final Android 10 build won't be as risky as getting involved in a beta program, it's still a really good idea to backup your Android devices regularly and before committing to the upgrade. Make sure to back up your Android phone to your PC to make sure your precious data is as safe as houses. How to install Android 10 So your phone has been confirmed to be getting the Android 10 update — hurrah! Now what? Well, you may have to wait a while. Some manufacturers take a little while to push the update out, whether it's the speedier companies like Nokia, or the slowpokes of Samsung and LG. That usually comes down to how much work they have to do, and creating manufacturer UIs like Samsung's upcoming One UI 2.0 can take a significant amount of time. Thankfully, when your update is ready, it'll be pushed through to your phone and you'll be prompted to upgrade. You can either upgrade right then and there, or you can choose to have your phone install it at a later time when it's more convenient — you can even have it update overnight. If you're really, really excited about it (like us) then you can manually check to see if the update has come in. To do so, head to Settings > System > Advanced > System update > Check for update. If you're not using a stock Android phone, then your path to finding the updates section may be slightly different — for instance on Samsung phones, you can access Software update directly from the Settings app — but it's almost always somewhere in your Settings. That's really all there is to updating to Android 10. Unsure of what's new in the operating system? Check out our Android 10 review. Editors' Recommendations
